

Financial Intelligence Platform

Acceptance Checklist

Project Information

Project Title: Financial Intelligence Platform

Sprint: Sprint 6

Day: 45

Document: Final Acceptance Checklist

Prepared By: Bhimishetti Lohith

1. Purpose

This Acceptance Checklist documents the final verification of the Financial Intelligence Platform prior to project closure. The checklist ensures that all functional, technical, documentation, and reporting requirements have been completed according to the project specification.

Each acceptance gate has been reviewed using SQL queries, application testing, API validation, report inspection, or manual verification. Deliverables generated throughout the project are also verified to confirm their presence within the project structure.

2. Acceptance Gates

Gate ID	Acceptance Criteria	Verification Method	Evidence
AC-01	Companies table contains 92 records	SQL Query	SELECT COUNT(*) FROM companies;
AC-02	At least 90% of companies have 10 or more years of Profit & Loss, Balance Sheet, and Cash Flow data	SQL Query / Data Validation	Data Quality Report
AC-03	PRAGMA foreign_key_check returns 0 rows	SQLite Validation	SQLite Output
AC-04	financial_ratios contains at least 1,100 records	SQL Query	Row Count
AC-05	Revenue CAGR matches manual Excel calculation within ±0.1%	Manual Validation	Excel Comparison
AC-06	ROE matches companies.roe_percentage within ±5% for five sampled companies	Manual Validation	Comparison Table

Gate ID	Acceptance Criteria	Verification Method	Evidence
AC-07	Quality Screener preset returns 10–50 companies	Dashboard Testing	Screener Output
AC-08	Company Profile screen loads in less than 3 seconds	Manual Timing	Timing Observation
AC-09	Screener CSV download is valid and well formed	Manual Inspection	CSV File
AC-10	No text overflow detected in five sampled tearsheet PDFs	Manual Inspection	PDF Review
AC-11	/api/v1/health returns HTTP 200	API Testing	API Response
AC-12	TCS ratios endpoint returns 10 or more years of financial ratios	API Testing	JSON Response
AC-13	API screener output matches screener_output.xlsx	Data Comparison	Output Comparison
AC-14	peer_percentiles contains data for all 11 peer groups	SQL Query	SQL Output
AC-15	All 92 companies have a cluster_id assigned in cluster_labels.csv	CSV Verification	CSV Inspection
AC-16	Every company has at least one generated Pro and one generated Con	CSV Verification	pros_cons_generated.csv
AC-17	92 tearsheet PDFs exist and each is at least 30 KB	Folder Verification	File Inspection
AC-18	pytest reports 60 or more tests collected and 0 failures	Automated Testing	Pytest Output
AC-19	validation_failures.csv exists with company_id, field, issue, and severity columns	File Verification	CSV Inspection
AC-20	analyst_guide.pdf contains at least 10 pages	Manual Verification	Verified (18-page document)

3. Deliverables Checklist

The following project deliverables were verified for presence within the project repository.

No.	Deliverable	Expected Path	Status
1	Project README	/README.md	Present
2	Sprint 1 Documentation	/docs/sprint1/	Present
3	Sprint 2 Documentation	/docs/sprint2/	Present
4	Sprint 3 README	/docs/sprint3/README.md	Present
5	Sprint 4 Documentation	/docs/sprint4/	Present
6	Sprint 5 README	/docs/sprint5/README.md	Present
7	Sprint 6 Documentation	/docs/sprint6/	Present
8	Day 44 Report	/docs/day44_report.pdf	Present
9	Day 45 Final Sign-Off Report	/docs/day45_final_signoff.pdf	Present
10	Analyst Guide	/docs/analyst_guide.pdf	Present
11	Acceptance Checklist	/docs/acceptance_checklist.pdf	Present
12	SQLite Database	/db/nifty100.db	Present
13	Database Schema	/db/schema.sql	Present
14	ETL Loader	/src/etl/loader.py	Present
15	Validation Report	/reports/validation_failures.csv	Present
16	Load Audit Report	/reports/load_audit.csv	Present
17	Financial Ratios Output	/reports/financial_ratios.csv <i>(or project output location)</i>	Present
18	Screeener Output	/reports/screeener_output.xlsx	Present
19	Cluster Labels	/reports/cluster_labels.csv	Present
20	Pros & Cons Output	/reports/pros_cons_generated.csv	Present
21	Portfolio Summary Report	/reports/portfolio_summary.pdf	Present
22	Sector Report	/reports/sector_report.pdf	Present
23	Company Tearsheets	/reports/tearsheets/	Present

4. Overall Acceptance Summary

Category	Status
Functional Requirements	PASS
Database Validation	PASS
Financial Analytics	PASS
Dashboard Functionality	PASS
REST API	PASS
Report Generation	PASS
Documentation	PASS
Testing	PASS
Final Acceptance	PASS

Conclusion

The Acceptance Checklist serves as the formal verification record for the Financial Intelligence Platform. Successful completion of all acceptance gates confirms that the application satisfies the defined functional, technical, and documentation requirements. Upon verification of the listed deliverables and acceptance criteria, the project is considered complete and ready for academic submission.
